THE GUIDE TO YOUR PERFECT FIT

Finding the right ring size is essential to ensure your jewellery feels as perfect as it looks. At Khazana Jewellery, we've made it easy with two simple methods, whether you have an existing ring or not. Let's help you find your perfect fit!

TECHNIQUE 1: MEASURE WITHOUT A RING

STEP 1

Grab a non-elastic piece of paper or string. Flexibility is key, but you don't want it to stretch!

STEP 2

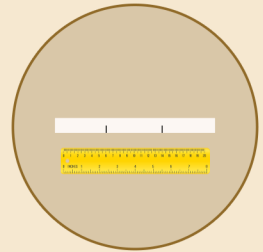

Gently wrap the paper or string around the base of your finger. The fit should be snug but not tight.

STEP 3

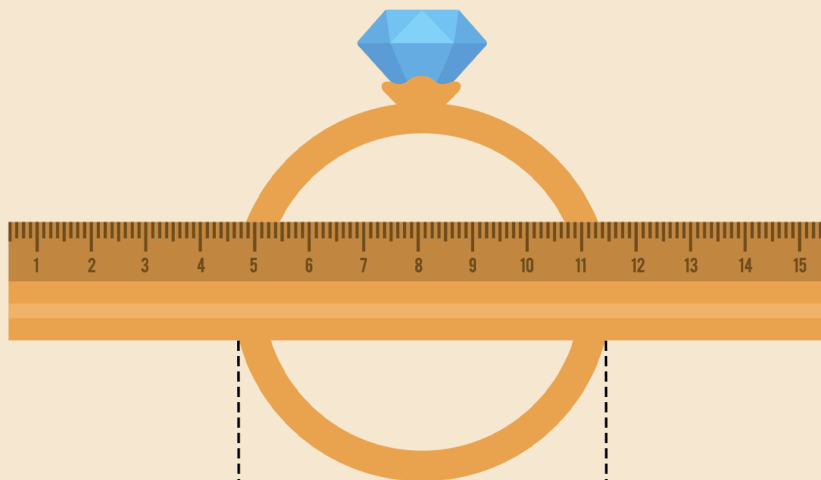

With a pen, mark the point where the paper or string meets itself after a full wrap around your finger.

STEP 4

Now, flatten the paper or string and use a ruler to measure the distance between the two marks in millimeters.

TECHNIQUE 2: MEASURE WITH AN EXISTING RING

STEP 1

Place a ruler across the inside of the ring and measure its diameter in millimeters.

STEP 2

Compare your measurement with our chart to find the size that best fits you.
